1.0 SUMMARY OF THE REQUIREMENT

The objective of this Request for Standing Offer is to establish a Standing Offer agreement with the successful contractor(s) to provide hazardous materials assessment surveys (HMAS) services as needed in support of restoration work at Orphan sites.

1.1 SITUATION OVERVIEW

The BC Energy Regulator (BCER), a Crown corporation, is the provincial single-window regulatory agency with responsibilities for overseeing oil and gas operations in British Columbia. The regulatory responsibility of the BCER extends from the exploration and development phases of oil and gas activities through to construction and operation, and ultimately decommissioning of industry projects.

The BCER primarily operates under the Energy Resources Activities Act (ERAA), and the following specified enactments named in that Act: The Forest Act, Heritage Conservation Act, Land Act, Environmental Management Act, and Water Act. The BCER also exercises certain regulatory responsibilities under other enactments with respect to oil and gas activities in British Columbia. Please visit the BCER website for further information at www.bc-er.ca.

Oil and gas sites in BC, such as wells, facilities, pipelines and/or sites affected by oil and gas activities, where the operator is insolvent or cannot be located, may be designated as Orphan sites by the BCER. Once a site has been designated an Orphan, the BCER may use the Orphan Site Reclamation Fund (OSRF) to decommission and restore the site. The primary goal is to protect public safety and the environment, and work on Orphan sites must first address these risks. The restoration process provides assurance to stakeholders that the site has been restored in accordance with current standards and requirements, and that all known contamination risks or other hazards have been mitigated.

1.2 SPECIFIC SERVICE AREA

The specific site service area included in the Request for Standing Offer include the following:

1. Hazardous Materials Assessment Surveys

- a. Provide services to conduct onsite hazardous materials assessment surveys (HMAS) where samples of potentially hazardous materials will be gathered and sent for laboratory analysis to confirm material presence.
- b. Generation of reports based on the findings from the onsite survey, provided to the Regulator for internal use and distributed to Orphan contractors.
- c. Materials to be tested for should include but not be limited to; lead, asbestos, and signs of rodent infestation.

Successful respondent(s) will supply Services on an as, if, and when requested basis. From time-to-time, BCER staff may supervise specific projects. Additional Contractors may be added from time to time as needed, as outlined in Section 3.7.

The BCER will select successful contractor(s) who establish a Standing Agreement for services for existing and future opportunities at the discretion of the BCER as outlined in Section 3.5.

The term of the Standing Offer will be for the period of April 1, 2026 to March 31, 2027 with an option to renew for two additional one-year terms at the discretion of the BCER. Pricing is to be firm for the term of the Standing Offer. The BCER will contact the Contractors, to discuss any changes to the Standing Offer including pricing, if they choose to take advantage of the renewal option. Any renewal pricing submitted will need to be firm for the renewal term.

The decision to use any Standing Offer will rest with the BCER with respect to Orphan site management services. A Standing Offer is not a contract. Under the Standing Offer, the BCER will issue a General Service Agreement for an Orphan site or program for a group of Orphan sites.

The Offeror will be requested "as and when required" to do work on a job-by-job basis.

The BCER has complete discretion to decide whether a Draw-Down is required, and if so, under which Standing Offer the Draw-Down will be made.

The request is for services to be provided to the BCER on an as, if and when requested basis with no guarantee that any of the services will be used.

2.0 REQUEST FOR STANDING OFFER TERMINOLOGY

The terminology used throughout this Request for Standing Offer is as follows:

- a) "Contract" means the Contract entered into by the Offeror and the BCER by means of the written General Service Agreement against the Standing Offer, for the provision of the specified Service and for the prices set out in the Standing Offer. The Contract is formed on receipt of the Signed contract;
- b) "Contractor" means the Offeror who is in receipt of a Draw Down Form requesting supply of a portion of the Service from the Standing Offer;
- c) "Draw Down Form" means any form of the BCER that lists the Service set out in the Standing Offer and is sent to the Offeror. The draw down can be initiated with a verbal or email when the BCER requests services;
- d) "BCER" means the British Columbia Energy Regulator;
- e) "must", "mandatory" or "required" means a requirement that must be met in order for a Standing Offer to receive consideration;
- f) "Offeror" means the offeror, supplier, contractor or proponent who is successful in response to this Request for Standing Offer;
- g) "Respondent" means an individual or a company that submits, or intends to submit, a response to this "Request for Standing Offer";
- h) "Service" means project management and/or Orphan site management, and restoration activities.
- i) "should" or "desirable" means a requirement having a significant degree of importance to the objectives of the Request for Standing Offer; and

3.0 REQUEST FOR STANDING OFFER PROCESS

3.1 STANDING OFFER EXPLANATION

The BCER has issued the Request for Standing Offer to solicit responses from suppliers. The BCER issues Standing Offers following an evaluation of the responses submitted. The Standing Offer is an offer from the potential supplier to sell goods and services to the BCER as, if and when requested. When a supplier signs a Standing Offer, that entity (the "Offeror") is offering to provide certain products or services at specified prices over a specified period-of-time. If and when the BCER makes a draw-down against that Standing Offer, only then does the Offeror have a Contract for the amount drawn down or ordered.

3.2 CONTRACTUAL OBLIGATION

There is no contractual obligation on either party until a draw-down is made. The Standing Offer lays out the terms of the offer, including the terms and conditions that will govern any subsequent draw-downs. A Standing Offer is not a contract and an Offeror may withdraw a Standing Offer by notification to the BCER or the BCER may set aside a Standing Offer at any time. However, all contracts received by an Offeror prior to withdrawing are legally binding and must be honoured. No Offeror will acquire any legal or equitable rights or privileges relative to the goods or services until the Draw Down Form is received. The terms and conditions laid out in the contract will apply to the draw-down.

3.3 ACCEPTANCE OF STANDING OFFERS

- a) This Request for Standing Offer is not an agreement to purchase goods or services. The BCER is not bound to accept the lowest priced or any response of those submitted. The BCER will assess responses as per the evaluation criteria for each service, described in Section 6. The BCER will be under no obligation to receive further information, whether written or oral, from any Respondents.
- b) Neither acceptance of a response nor receipt of a Standing Offer will constitute approval of any activity or development contemplated in any Standing Offer that requires any approval, permit or license pursuant to any federal, provincial, regional district or municipal statute, regulation or by-law.

3.4 INITIAL SUBMISSION DATE AND LATE RESPONSES

Responses to this RFSO must be received not later than the initial submission date and time and must be received in the manner and location indicated on the face page on this RFSO.

Late responses may be accepted, as per Section 3.7.

3.5 EVALUATION AND SELECTION

The evaluation committee will check responses against the mandatory criteria described in Section 6.1. The BCER will reject any responses if they do not meet all mandatory criteria.

The BCER will assess responses that meet all mandatory criteria, against desirable criteria for each of the requested services in Section 1.2. The BCER may award Standing Offers for each of the requested services to the highest scoring proponent(s) in each service category.

3.6 ALLOCATION OF SERVICES

The allocation of work will be at the sole discretion of the BCER and the BCER may select one or more Contractors with a Standing Offer, subject to the contractor's ability to provide the required services within the BCER's desired timeframe and geographic areas, and ongoing satisfactory performance. While the BCER may award work to Contractor(s) with a Standing Offer, we may request quotes from multiple Contractors with a Standing Offer Agreement to determine the most suitable for the requested services. The Contractor shall not have any claim for compensation, expense, damage or loss of profit from the BCER for any failure of the BCER to allocate any portion of the work to a Contractor(s).

3.7 ADDITIONAL SUBMISSIONS

The BCER will accept additional proposals after the initial submission date and time; however, such additional proposals will only be reviewed against the mandatory and desirable criteria if, and when, necessary to add additional contractors to the Standing Offer.

The working language of the Province of British Columbia is English and all responses to this Request for Standing Offer must be in English.
